# SEAGULLS

My family goes to a beach in Florida every summer. We enjoy going to the beach. I like swimming in the ocean, walking on the beach, and playing in the sand. My favorite thing to do at the beach is feed the seagulls.

Seagulls are pretty white birds with long legs. They are interesting birds and live near the ocean. They are always flying around the beach. They catch small fish in the ocean to eat. They like to eat what the people on the beach feed them, too. I usually take small pieces of bread with me in a bag. At the beach we go to, the seagulls will fly right up to you and eat the bread from your hand. They do not seem to be afraid of people.

The next time you visit the beach, take some bread with you. I am sure you will enjoy spending time with the seagulls.

## ANSWER THE QUESTIONS.

1. What is the main topic of this passage?
  - a. going on vacation
  - b. swimming at the beach
